**Wir liefern sicher**

GOGATEC GmbH: is a distributor for electrotechnical, electrical and mechanical components as well as markings for automation in machinery-, plant construction- and control installation- industry.

Gogatec was founded in 2003 by Gabriele Aicher and Gottfried Kainradl. The name of the company relates to the first names of Mrs. Aicher and Mr. Kainradl, our equal acting partners, and represents the strong personal commitment within Gogatec.

After eight years of business operation, the office enlarged thrice, the stock is seven times as big as in the early stages and the product range has grown up to more than 30.000 articles.

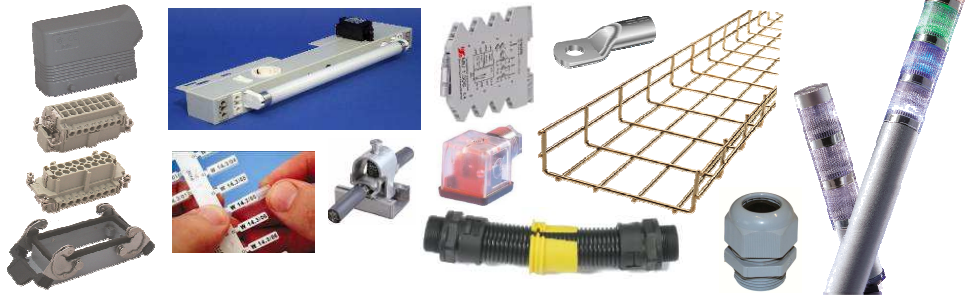

The portfolio contains products with brand names (Ilme, Anamet, Tyco, Patlite,...) as well as products with strong store brands of Gogatec (GOGABOX, GOGACON, GOGAFACE; GOGAFIX, GOGALIGHT, GOGAMARK, GOGAPIN, GOGAPLUG, GOGAPLUS, GOGASWITCH, GOGATIE, GOGATERM). Furthermore we are distributor for Schneider, Lütze, Rittal and Vipa products. In this position we are able to forward our excellent conditions to our clients. The majority of our products origin from European countries and fulfil all necessary quality requirements.

To continue the consequent expansion of our product range we always try to find new products either with special technical attributes or products with a very good value for money – certainly we prefer products which fulfil both requirements!

All of our 12 employees show high personal commitment to help our customers with technical questions, quick deliveries, flexible solutions or personal product presentations. Therefore we can reach our promise – WE DELIVER SURELY!
