Wir liefern sicher

We supply electrotechnical, electronic and mechanical components as well as markings for automation in machine, plant and control engineering.

Gogatec was founded in 2003 by the managing directors Gabriele Aicher and Gottfried Kainradl. The company name is made up of the two first names of the owners.

Gogatec now has around 1,800 customers, the supplier base has been expanded to 150 partners and the product range has grown to over 40,000 items. In 2014, the new company building with almost 600 m² of storage space was moved into.

The range contains products with well-known brand names (Ilme, Anamet) and strong own brands (GOGABOX, GOGACON, GOGAFACE, GOGAFIX, GOGAFUSE, GOGALIGHT, GOGAMARK, GOGAPIN, GOGAPLUG, GOGAPLUS, GOGAPUSH, GOGASHIELD, GOGASHRINK, GOGASWITCH, GOGATIE, GOGATERM, GOGATRAY, GOGATOOL). Gogatec also acts as a wholesaler for Zoller + Fröhlich, Siemens, Lütze, Rittal and Aiona and can pass on the own good conditions to the customers.

Since 2012 our internal quality management is based on the ISO 9001 standard and has also been certified accordingly. Our sales items are related mainly from Europe and thus meet the desired high quality requirements. Our environmental management is ISO 14001 certified since 2018.

With the ongoing expansion of our portfolio, we pay particular attention to the fact that the products offered to our customers have either special technical attributes or are products with a very good value for money - of course we prefer it if both apply!

In 2017, Company Elmeco was bought and moved to the premises of Gogatec GmbH. For this purpose, the small parts warehouse was expanded to two floors. In the range of C-parts such as cable ties, heat-shrink tubing and cable lugs, we were able to double our market share through the takeover of Elmeco. Since autumn 2019, the two companies have merged under the name Gogatec GesmbH.

All our employees show high personal commitment to help our customers with technical questions, quick deliveries, flexible solutions or personal product presentations. Therefore we can reach our promise – “WE DELIVER RELIABLE!”
